FOODSERVICE, LLC

**A. Coffee Brewers.**

If you're looking for rich, flavorful coffee but are tight on counter space, plug in a Bloomfield Lo-Profile® brewing system. At a little under 19" tall, they're short in stature but long on features. A ready-to-brew light indicates the proper water temperature to help eliminate brewing guesswork, and our patented water delivery system gently spreads a precise amount of water over the coffee grounds for complete saturation and optimum flavor. UL, NSF.

C

**C. Food Mills.**

Strain or puree fruits and vegetables. By placing cooked fruits or vegetables in the mill and turning the crank, the semi-circular blade oversweeps, compresses and scrapes the food. The bar that straddles the container applies constant pressure against the cutting plate and crushes the food, while retaining seeds, skins and fibers. The basket sieve cutting plate allows for larger amounts of food to be milled at one time.

**E. 8000N Series Raised Rail Preparation Tables.**

Randell's wrapped wall prep table is designed to protect your food from heat gain in the hottest kitchens. The base is cooled by a mullion coil allowing air flow between products stored in the base while protecting the coil from damage behind the door mullion. The raised rail is mechanically cooled instead of forcing air from a base coil. The wrapped wall design produces no air movement only a cold blanket of air that rest above the product protecting it. Standard features include: rail drain, with clean out valve, rail on/off switch & separate temperature adjustment for base & rail. Model 8268N shown.

Watch video about CORE Fire Protection

**B. CORE Protection.**

CORE Protection provides superior fire protection for commercial kitchens. Water-based fire suppression system designed to provide primary coverage for hood plenum, grease ductwork and cooking appliances. Capable of automatic detection and actuation via an electric thermal detector located in the hood and the duct connection. Spray bar extends the full length of the hood and also provides automatic washdown of the duct and plenum to minimize grease build-up. ETL listed to UL Standard 300 and ULC/ORD-C1254.6. Contact us for additional information.

**D. Ice Pro™ Ice Bagging & Dispensing System.**

The savings will add up with Ice Pro™ and boost your profits on bagged ice. Ice Pro™ eliminates the need to shovel or scoop ice from the bin. A foot pedal or push button actuates mechanical dispensing at a rate of 75 to 120 lbs. of ice per minute or six to eight 10 lb. bags of packaged ice per minute. An automatic agitation cycle prevents ice from forming bridges—two rotating agitator bars keep ice loose and free flowing. Two year parts & labor warranty.

Produce bagged ice with Ice Pro™ for about 20¢ per bag compared to purchasing pre-bagged for \$1.00 or more.

Model	Description	Ea.

### Ice-O-Matic® Ice. Pure and Simple

#### C. ICE Series™ Undercounter Cube Ice Makers.

The only 24" wide undercounter cuber in the industry, and the NEW 15" wide undercounter Pearl ice maker... offer the best solution for hard water, food safety and tight spaces. Redesigned, self-contained units offer improved reliability and practical features. PURE ICE® - Built-in antimicrobial protection for the life of the ice maker inhibits bacteria and slime fungus growth. Optional water filtration system provides protection against unpleasant tastes, odors and scale formation. Front Air Discharge - Maximum ice production in a minimum amount of space. Application storage built-in. Purchase our water filters and change every 6 months, and take advantage of the only 7 year evaporator warranty in the industry. Meets CEC and Energy Star criteria. Model ICEU220 shown.

**B. Walk-In Coolers & Freezers.**

Exceptional quality at a low life-cycle cost. These versatile and dependable walk-in coolers, freezers and combination cold rooms are custom designed to satisfy exacting job site conditions. Indoor or outdoor models are available in 4" or 5" thickness to ensure that the space available is used most efficiently. Choose from a large selection of metal finishes, walk-in accessories and custom engineered refrigeration systems. Our System 100 monitoring system is standard equipment and includes a digital display, audio/visual alarm, light switch, remote alarm hookup and door heater control. 5 year compressor and 1 year parts warranty. Contact us for additional information.

**B**

**C. 6000XL Series Reach-In Refrigerators/Freezers.**

6000XL is an investment in your business that pays for itself through lower cost of ownership. The 6000XL series uses a top mount refrigeration system and Delfield's patented ABS liner to improve insulation and decrease thermal leakage. Design improvements include oversized evaporators and condensers, a unique tri-seal door gasket and high-efficiency fans. Stay-open doors for easier loading and seamless liners for easy cleaning. Holds 18"x26" pans. Field reversible doors. Available in 1, 2, or 3 door configurations.

**E. Basket Border™.**

Make your own multi-compartment fryer basket. Small batch frying is easier with the patent pending Basket Border™ fryer basket divider. Fry two or three different products at one time. Helps maintain portion control. Fits most 5 3/4" to 6 5/16" wide baskets. Fryer basket not included. Model 226-1132 \$6.60 Ea.

# Scotsman

Ice Systems

A

**A. Prodigy® Modular Cube Ice Machines.**  
 Uses less energy and water than traditional ice machines exceeding Federal energy efficiency regulations by up to 22%. AutoAlert™ indicator lights communicate operating status and signals when it's time to perform normal maintenance or time for service BEFORE it's an emergency. Patented WaterSense adaptive purge control reduces scale buildup by detecting hard water conditions and purging mineral laden water. Stainless steel finish. Produces small or medium cube ice. Bins sold separately.

**Watch Video for more information on the Scotsman Prodigy.**

B

**B. Royal Series Slide Top Bottle Coolers.**

High quality build for durability. Heavy duty units available in 2, 3, 4, 6 and 8 foot models. Features include 24" front-to-back depth to match underbar depth, stainless steel inside floors that will not rust, heavy duty doors and center bar construction built to take abuse, rugged grab bar handles make it easy to open and close, easy to clean coved corner construction inside, floor drain inside cooler connected to condensate evaporator pan, easy to service, 5 year compressor warranty. Available in black and stainless exteriors. 115V, single phase, 60 Hz.

## Curtron Products

a division of TM Incorporated

**C. AIR-PRO Air Doors.**

Reduce energy cost while increasing customer and employee comfort. Stainless steel low profile two speed air doors create an invisible barrier of air, generated by high efficiency, direct driven centrifugal fans, that compress the air inside the unit and release the air through a directional nozzle outlet with a pressure powerful enough to stop winds up to 25 miles per hour. The two speed motor can be put on high to stop flying insects on the back door or on low for front door or cooler applications. Includes mounting plate, automatic door plunger switch and 3-prong plug. 120V, single phase. NSF approved up to 84".

**E. ReRun (Recycled) Can Liners.**

ReRun can liners are formulated from a blend of their own recycled virgin resin and the highest quality post-consumer resin. The result is an environmentally sound, versatile, and 100% recyclable can liner at a competitive price. ReRun can liners are manufactured with up to 80% recycled content and can be used to earn LEED credit. Available in a wide range of strengths and sizes. Choose from 12 gal. to 60 gal. sizes. Contact us for additional information.

**B. Pulse™ Mopping Kit with Double Sided Frame.**

Two jobs, one tool—Dust mop with the green side, flip to the blue side for damp mopping. The double-sided microfiber mop accomplishes dust and damp mopping with one convenient tool when used with Rubbermaid Pulse™. Cleans floors up to 20% faster than traditional string mops and is proven to remove 99.9% of micro-organisms. The Pulse™ ergonomic trigger handle dispenses three streams of cleaning solution; its high capacity reservoir holds enough solution to clean up to 850 sq. ft.
