Refreshing Savings

Scotsman®

A. Prodigy® Modular Cube Ice Machines.

Uses less energy and water than traditional ice machines exceeding both the California and Federal energy efficiency regulations by up to 22%. AutoAlert™ indicator lights communicate operating status and signals when it's time to perform normal maintenance or time for service BEFORE it's an emergency. Patented WaterSense adaptive purge control reduces scale buildup by detecting hard water conditions and purging mineral laden water. Stainless steel finish. Produces small or medium cube ice. Bins sold separately.

NE-3280	3200 Watts, Full 3 Yr Warranty	\$3,831

Lincoln

A. Digital Countertop Impinger (CTI), 2500 Series.

Small enough to fit on most countertops, but large enough to replace a half-sized convection oven or five microwave ovens. The new Digital CTI includes four pre-set menu options, a more robust “stepper” motor and a wider temperature range of 90°F to 600°F. Air impingement uses hot air under pressure which surrounds food with small jets of hot air. The new ability to reverse the conveyor motor from the control panel allows easy placement within different kitchen environments. Enhanced menu flexibility due to the adjustable conveyor speed that now ranges from 30 seconds to 15 minutes. Analog models (1300 series) also available. Model 2501/1346 shown.

Model	Description	Each
2501/1353	208V, w/ 31" Std Conveyor	\$4,907
2502/1353	240V, w/ 31" Std Conveyor	\$4,907
2501/1346	208V, w/ 50" Std Conveyor	\$5,394
2502/1346	240V, w/ 50" Std Conveyor	\$5,394

Cadco

B. LineChef™ Manual Convection Ovens.

Expect the same cooking performance as our digital convection ovens, except with manual controls! Advanced airflow design with patented baffle.

- Manual controls (time & temperature)
 - Heat settings from 175° to 500°F
 - 60-minute timer
 - Humidity feature on half and full size models
 - Heavy duty stainless steel construction
 - Interior halogen light
 - 3" between shelves
 - Cool-touch double wall glass door
 - Oven cavity wrapped in high “R” value insulation
 - Designed to accommodate stacking
 - NSF, UL through CSA standards
- Model XAF-193 shown.

Model	Description	Each
XAF-103	Quarter Size, Holds (3) 1/4 size sheet pans (not included)	\$928

XAF-193	Full Size w/Humidity, Holds (4) full size sheet pans (not included)	\$2,291

CAPTIVE AIR

C. Energy Management System Plus™.

Save money. Reduce Fan Energy. Increase Kitchen Comfort. The EMSplus™ Ventilation System is designed to automatically reduce exhaust and supply airflow quantities, while ensuring hood performance is maintained. The EMSplus uses variable frequency drives and temperature sensors in the exhaust ducts to modulate the fans speed during cooking operation and maximize energy savings. With the EMSplus, you now have the ability to monitor and control the entire system with the touch of a finger— touch screen interface provides fan(s) control, system configuration, programming of schedule and diagnostic information. Various sizes available. Contact our customer service department for assistance.

E

E. Waste Xpress Food Waste Reduction System.

The Waste Xpress by InSinkEerator helps you reduce labor and waste handling costs while increase kitchen efficiency. The kitchen waste, consisting of food and non-food items is ground into small particles in the disposer grind chamber. This ground waste is then transferred to the dewatering unit where the liquids are extracted and sent down the drain line, the compressed waste is then dispensed through the chute into a standard 10-gallon trash can. This reduces the volume by 85%. Model WX300-18-A 3, HP, 18" Type A Bowl, WX101 control **\$14,347 Ea.**

PITT Plastics INC.

F. Deja Vu Can Liners.

Earn LEED credit by using Deja Vu Can Liners! Pitt Plastics internally recycle all of the by products from their entire product line. These by products are 100% virgin resins that are left over as the result of the manufacturing process. Deja Vu can liners are formulated from a blend of their own recycled virgin resin and the highest quality post-consumer resin. Deja Vu can liners are manufactured with up to 50% recycled content and provide you with a reasonably priced, environmentally responsible product.
